Introduction

IWDI played a crucial role in social development and uplifting the rural and urban poor in the past years, we have been involving ourselves in extending socio economic development of remote and unreachable corners of the targeted district.

It is clear that there is deep inconsistency in the crucial role that the IWDI have been playing over the years towards social and economic developments in reaching out to the farthest, the remotest, the neediest and the most marginalized sections of the society. IWDI focus on transparency and accountability in the organization's functioning and insist that all information which brought to the public domain.

Women Development Project:

Tamil Nadu is the pioneer state in implementing women development project through the special corporation, since the inception of the concepts IWDI had been working with the government to form and strengthen the women members through the structured manner. IWDI formed SHGs in Chennai urban slums and Gumudipoondi block of Thiruvallur district. In both the places, it's approved by the Government of Tamilnadu to undertake the initiatives on Development of poor women community.

Newly Formed SHGs during this Financial Year 2019-20

S.No	Name of Areas	No.of SHGs
1	Kolathur	6
2	Villivakkam	4
3	Aynavaram	6
4	Kilpauk	3
5	Anna Nagar	3
6	Nammalvarpet	5
7	GKM Colony	3
8	Thirumangalam	4
	Total	34

There are 1,669 SHGs in Chennai which covering Villivakkam, Ayanavaram, Kolathur and Anna Nagar etc. There are 24,949 women benefiting from SHGs. Most of them are daily wage earners, domestic laborers, artisans, Mill workers, Brick makers, shepherds and farmers. Under the guidance and support of the Tamilnadu Corporation for Development of Women (TNCDW), Chennai. IWDI also formed and strengthened SHG groups in Gummidipoondi, Tiruvallur District. TNWDP offering its technical and financial support for mobilize and form SHGs. Therefore we formed 1,135 SHGs with women population of 17,025 women in Gummidipoondi Block, Tiruvallur District.

Capacity Building

All the SHG members and the Animators and Representatives are imparted training. The primary objective of this training is to orient all members to the SHG concept and bring out the hidden talents and capacity of all the members and the SHG members who are interested in starting economic activities.

Credit Support through NABFINS

Integrated Women Development Institute (IWDI) has been associated with the NABARD Financial Services, Bangalore for making its credits to the areas both in Chennai slums and Gummidipoondi. IWDI has arranged Loan **Rs. 11, 86, 80000/- (Rupees Eleven crores eighty six Lakhs and eighty thousand only)** to benefit **2,619** beneficiaries from **92 SHGs & 305 JLGs** during the year 2019 - 20 inclusive of Chennai and Gummidipoondi of Tiruvallur District. On Time Repayment Rate (OTRR) is very high and Portfolio at Risk (PAR) is very low (below 0.50%). The funds would be utilize for their domestic purpose, creating assets , micro income generation activities such as petty trades , vending activities , medical, purchasing jewel items, constructing houses, toilets and their children's education purposes etc.

Majority of the loan reaches the target clients on time without deductions; this helped the members to not run behind the money lenders for their needs in livelihood purposes. The number of beneficiaries reaches during this year in higher than the last financial year; the new concept of Joint liability groups had been introduced. A Joint Liability Group (JLG) is an informal group comprising of 4-10 individuals coming together for the purpose of availing bank loan on individual basis or through group mechanism against mutual guarantee. Generally, the members of a JLG would engage in a similar type of economic activity.

Economic Activities of SHG Members

The SHGs run on the collective funds. This fund is accumulated from the fixed monthly savings of each member of the group. The group fund is then utilized for internal lending with an interest, much less than that charged by private moneylenders. Following a stabilization period of six months, the smoothly functioning groups become eligible to avail government schemes and can later even access credit from the banks and other private micro-credit institutions.

Access to credit allows well managed, enterprising groups to take up income generation activities on individual or collective basis” Apart from this external support, mutual trust and unity among the group members generate required strength as well as solutions in dealing with problems. For instance, the SHG from Gummidipoondi was all equipped and qualified to access credit under the NABFINS scheme From a year of its formation. However, the bank dismissed their proposal on the grounds that two of the group members belonged to a family of loan defaulters. This made the entire group unqualified to apply for loan. The group however did not give up and decided to repay the loan amount from the group savings.

Once the women crossed this hurdle they were entitled to an initial revolving fund of Rs.25, 000/-, with a subsidy of Rs.10, 000/-. They used part of this money to buy goats and utilized remaining amount as individual loans. As they repaid this initial fund within six months, the group became eligible for a fresh loan of Rs.150, 000 at 18 per cent interest. In consultation with IWDI, members of the SHG decided to do an income generating activity.

Working towards a quick loan repayment that will make them eligible for a subsidy of Rs. 100,000, a major share of the profit is utilized for this purpose. Inspired by the social and economic empowerment that is an outcome of the SHG process, not surprisingly, men too in Gummidipoondi and in several other villages have come together to form their own SHGs.

Empowering Youth in Urban Slums:

Both unemployment and underemployment are the major problems in the metropolitan city. Chennai faces a vast migration, expansion of geographical areas of the city increasing population in the existing slums. The main reason for both unemployment and underemployment is due to the fact that they were not well-equipped with the knowledge and skills needed to get into the jobs.

They are less fortunate in getting access to learning about technical advancement and communication skills. To help them get rid of such barriers; IWDI has associated with SMILE Foundation that extended their reaching hand. The centre arranged all the necessary arrangements for the youngsters from 18 to 25 years in age to learn Computer, develop their personality, and keep abreast with knowledge on retail management and training on spoken English. The project commenced in June, 2016 and IWDI takes the pride of empowering more than 80 youth hailing from slums. With the award of Certificate from International Microsoft Company, they have been placed in various jobs in accordance with their liking and capacity.

Smile Twin E- learning Programme (STeP) is such an initiative of IWDI that aims at creating a pool of young and independent people, from a section of underprivileged youth, through skill enhancement in tandem with market requirements. It is an effort towards bridging the gap between demand and supply of skilled manpower in the fast emerging services and retail sectors of modern India.

This programme trains the urban underprivileged youth in English Proficiency, Basic Computer Education and Soft Skills for enhancing their prospects of employment in the fast expanding retail, hospitality and BPO sectors. So far, 120 youth have been trained in this financial Year 2019-2020 and 84 have been placed in various sectors across Chennai.

Shelter for Urban Homeless (SUH)

Persons who do not have a house, either self- owned or rented, but instead lives and sleep on pavements, at parks, railway stations, bus stations and places of worship, outside shops and factories, at construction sites, under bridges, in home pipes and other places under the open sky or places unfit for human habitation. This also includes people who live in temporary structures without walls, under plastic sheets or thatched roofs on pavements, parks or other common spaces.

A two-prong identification process is being adhered to help the homeless to become inmates in the Shelters. i. Counsellor: The Counsellor pays direct night visits in the city. He tries to identify the homeless at bus terminus, Railway Stations, Pavements, Temples and places where people gather at large. ii. Referral: Referrals from external volunteers, Department personnel, the homeless are identified and accommodated in the shelter. In few cases, the one who wants to stay in the shelter becomes self-referral. iii. The Counsellor cum Coordinator: At nights, the counsellor regularly goes around the roadsides, under bridges, market places, sheds, bus terminus, and railway stations and so on to identify the homeless. Once identified, the counsellor approaches the Police Department to acquire memo for the inmate in the Shelter. While staying in the Shelter, the caretakers provide them with nutritious food, decent clothes and materials to sleep with comfort. The counselor cum coordinator often engages himself in counseling with the inmates with the intention of either rehabilitating or integrating them in the near future. The counselor maintains the documents in which profile of each inmate is preserved and maintained well.

The Greater Chennai Corporation has extended its financial and other supports to run the centers. The qualified Social Workers directly manage the running of the Shelters as Counselor cum Coordinator to offer comfortable stay for the homeless, supporting staff such as caretaker cum cook and security personnel has been employed in the Shelter. Our team staff is able to effectively manage in running the Shelter Homes. Therefore, we identified 685 homeless peoples in both shelters areas. Out of which 140 have been admitted in the homes and the remaining have been rehabilitated and reintegrated with their family members, they have been put under medical check-up, regular counseling on savings and implemented various Social amenities. |

Early Child Care and Development

Early child care and development sets the foundation for lifelong learning, behavior, and health. The experiences children have in early childhood shape the brain and the child's capacity to learn, to get along with others, and to respond to daily stresses and challenges. Believing that statement IWDI initiated the project with the support of Michelin India Pvt Ltd and with the technical support of Bala

Mandir Research Foundation Chennai in three villages in Ellapuram block and two village in Gummudipoondi block .This project being implemented with the focus of enhancing and ensuring the early life of children in five domains likely Social, Physical, emotional, cognitive and language. Totally the project addressed 155 children in the age group of 0-6, with our intervention; individual child assessment was done with the predefined formats
